CONEJO RECREATION & PARK DISTRICT

Job Title: Information Technology Technician
Division: Management Services

Summary:
Under direction, assists in the implementation, operation and maintenance of the District’s computing systems; maintains, tests, and installs information systems, programs and applications; installs and provides technical assistance and user training for computer hardware and software; and performs related duties as assigned.

Essential Duties and Responsibilities:

- Installs and maintains software and hardware; provides technical assistance and user training.
- Performs and implements systems maintenance, making program modifications as necessary to meet user requirements.
- Compiles, integrates, and analyzes information gathered from users to modify computer programs; evaluates, installs, and maintains third-party vendor software.
- Responds to inquiries and requests and provides technical assistance for District systems and programs including traveling independently to service systems at remote sites; troubleshoots hardware and software problems and coordinates activities by users and vendors to resolve them.
- Develops curriculum, training aids, and manuals on software programs; schedules and conducts training programs; initiates or coordinates communications regarding PC systems, programs, and applications.
- Maintains software licensing; responds to inquiries and requests for new software programs.
- Maintains current knowledge of information technology trends and innovations; reads applicable industry publications.
- Maintains work, time, and material records and preventive maintenance schedules.

OTHER DUTIES AND RESPONSIBILITIES

- Performs other related duties as assigned.

Qualifications:
To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. *

Education/Experience:
High school diploma or equivalent and two (2) years of computer technician or related experience; or equivalent combination of education and experience.

Language Ability:
Ability to read, analyze, and interpret general business periodicals, professional journals, schematic diagrams, or technical procedures and documents. Ability to write reports, business correspondence and procedure manuals. Ability to present information and respond to questions from groups of managers.

Math Ability:
Ability to apply concepts such as fractions, percentages, ratios, and proportions to practical situations.
Reasoning Ability:
Ability to define problems, collect data, establish facts, and draw valid conclusions. Ability to interpret an extensive variety of technical instructions in mathematical or diagram form and deal with several abstract and concrete variables.

Certificates and Licenses:
California Driver License

Supervisory Responsibilities:
This position has no supervisory responsibilities.

Knowledge of:
Principles, techniques of microcomputer systems software troubleshooting, and networking. Use, capability, characteristics, and limitations of microcomputers and related equipment. Principles and practices of training as related to personal computers. Standard database, word processing, spreadsheet and report generation PC software packages. Pertinent federal, state, and local laws, codes, and regulations.

Ability to:
Administer and maintain computers, and related peripherals. Analyze and define user problems and requirements. Analyze and define problems and conceptualize practical microcomputer solutions. Analyze systems requirements and problems and recommend new or modified systems and applications to meet user requirements. Plan and conduct effective user training courses. Work on multiple concurrent projects with strict deadlines and with frequent interruptions. Organize work to meet rapidly changing priorities. Troubleshoot hardware and software problems and make or recommend modifications; understand and carry out oral and written directions; exercise good judgment and initiative in work functions.

Work Environment:
The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job.*

Standard office setting; some exposure to confined areas such as equipment/computer rooms and network infrastructures; regular interaction with District staff at various sites/locations.

Physical Demands:
The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job.*

Sufficient physical ability to work in an office setting; sit, stand, walk, reach, twist, turn, kneel, bend, squat, and/or stoop for prolonged periods of time; perform duties requiring grasping, repetitive hand movement, and fine coordination; and operate office equipment; see in the normal visual range with or without correction; vision sufficient to read computer screens and printed documents and to operate office equipment; hear in the normal audio range with or without correction. The employee is frequently required to lift up to 25 pounds, and occasionally required to lift up to 50 pounds or more.

*Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
