

Recreation & Park District

Notice Requesting Proposals

WREGIS Solar Renewable Energy Credits (SRECs)

The Conejo Recreation and Park District, an active Western Renewable Energy Generation Information System (WREGIS) account holder (account ID: 1070), has generated 2,190 solar renewable energy credits (SRECs) and is requesting proposals from other WREGIS account holders for the purchase of these certificates.

For the three-year period January 1, 2016 through December 2018, Conejo Recreation & Park District logged an average of 800,000 surplus kilowatt-hours per year in the WREGIS Tracking Registry, approximately 200 certificates per quarter.

All California Sited Solar Renewable Energy Credits are deliverable in the WREGIS Tracking Registry, the applicable tracking system for this transaction. Proposals should include company name, WREGIS account ID, and per unit (certificate) purchase price. The specified contract term for proposals is three (3) years with two (2) 1-year term extensions.

All proposals must be received by 5pm (PST), August 30, 2019. Proposals will not be opened publicly. Proposals received after said date will not be considered. Please remit to bpalermo@crpd.org.
