COURSE DESCRIPTIONS:

CHESS, Learn to play this classic game in a fun way with your classmates. Develop planning and strategy skills, improve concentration and spatial thinking, and build self-confidence. Great for beginners to intermediate players. Instructor: Nicholas Garcia.

CAMPING SCIENCE, AGE 6-12 Discover how science can enhance your family camping trips and make them even more fun! Learn how to tell time with the sun, filter out water, create your own compass, and much s'more in this exciting nature-based science class! Instructor: CRPD Staff.

HIP-HOP GROOVES, In this interactive dance class, work on coordination and rhythm while learning about old school hip-hop moves and integrating the today's newest dance moves. In addition, students have the opportunity to create their own moves while collaborating with peers. Instructor: Beatbox Academy.

RECYCLED ART, AGE 6-12 Let's explore creating art with recycled materials! Using CREATE STUDIO's unique collection of recycled and crafty materials, students will make weekly art projects that foster imagination and support creative exploration. No art experience necessary. \$10 lab fee due first day of class. Instructor: CREATE Studios.

UKULELE, This popular instrument from Hawaii is easy and fun to play. Learn chords, strums, and how to sing along with your favorite songs! Ukulele available for rent \$10 for the session. Instructor: Tom Kuznowski.

U.S. COAST TO COAST, AGE 6-12 Learn about the amazing places and hidden gems across the country as we travel from coast to coast! Discover many of the different natural and manmade wonders across the country such as Yellowstone Park, Niagara Falls, the Empire State building, Mount Rushmore, and much more! Students will even get to make their own wish list map for the next family road trip! Instructor: CRPD Staff.

IN-PERSON ENRICHMENT ACADEMY 6-12yrs

\$325 per session • 9:00am-12noon • MWF (4 wks)

Spend time socializing at a safe distance while learning STEM, active sports games, and working on fun crafts and art projects. Each month enjoy three different enrichment classes to expand your knowledge and skills on a specialized subject: make a sewing project, learn chess, dance along to kids Zumba, make marvelous art projects in woodworking, or tackle logic puzzles during Math Blasters. Location: Thousand Oaks Center.
