

Conejo Recreation & Park District

Participant Return to Program Protocols

Regardless of Vaccination Status

Participant is Identified as a Close Contact	Participant Presents Symptoms ¹	Participant Tests Positive for COVID-19 ²
<p>Participant may continue attending program if no symptoms are present. It is strongly suggested exposed participants wear a face covering indoors around others for at least 10 days following the date of the last exposure.</p>	<p>Must be excluded from program immediately and testing is highly recommended. May return to program with a negative test and symptoms are no longer present or are mild and improving and free of fever for at least 24 hours without the use of fever-reducing medicines.</p>	<p>Must be excluded from program for at least 5 days after the start of symptoms (or after date of first positive test if no symptoms).</p>
<p>Exposed participants should get tested within 3-5 days of last known exposure, unless they had COVID-19 within the last 30 days.</p>	<p>If no test is performed participants must be excluded from program for at least 10 days since symptoms first appeared and be free of fever for at least 24 hours without the use of fever-reducing medicines and symptoms have significantly improved.</p>	<p>May return to program after 5 days if symptoms are not present or are mild and improving and free of fever for at least 24 hours without the use of fever-reducing medicines. A well-fitting face mask should be worn around others, especially indoors, for a total of 10 days since the start of symptoms or since the day of positive test if asymptomatic.</p>
<p>If symptoms develop, participant must stay home and follow protocol for "Participant Presents Symptoms." If positive test, follow protocol for "Participant Tests Positive for COVID-19".</p>	<p>A licensed health care professional may determine a participant may return to the program because the person's symptoms were caused by a known condition other than COVID-19.</p> <p>A note from a licensed health care professional is required.</p>	<p>If a fever is still present, participant may not return until 24 hours after fever resolves without the use of fever-reducing medicines. If other symptoms (not fever) are not improving, may not return until symptoms are improving or after 10 days.</p>

¹ The day symptoms appear is considered Day 0. The following day is considered Day 1.

² If asymptomatic and there is a positive test, the day of the positive test is considered Day 0. The following day is considered Day 1.
